- Country specific notes;
- Production statistics;
- Annual registration statistics;
- Names, addresses and principal contacts;
- Plus any other obtainable statistics;
- Supplied on CD in Word & Excel.

FREE Sample of any 1 country of YOUR choice
Developed continuously since 1993, the Guide concentrates mainly on buses and coaches over 7.5 - 8.0 tonnes gross, ie 25-30 seats and above. Supplied on CD in Microsoft Word and Excel 2003, it is kept up-to-date monthly and includes the following information in a standard format for every country:

- An introductory page with basic national statistics, car and commercial vehicle population, and, where relevant, names of chassis / integral manufacturers and bodybuilders.

- Notes on each country, including information about domestic manufacturers - chassis, integral and bodywork - and their principal activities, and where relevant, about the operating industry.

- A section on names, addresses and principal contacts at domestic manufacturers.

- Summarised specifications, in a standard layout for integral vehicles and chassis, over 7.5 tonnes gross, produced by domestic manufacturers.

These give basic dimensions; floor height above the ground; engine make, size and layout; gearbox type and options; axles and suspension; braking system; gross weight; etc. Specifications should be read as indicative. Some makers are willing to tailor-make vehicles to almost any specification.

- For all the more important countries, annual registration statistics in recent years by manufacturers. Almost all registration data is up to the end of 2010, except for one or two countries for which it is difficult to obtain information.

- Production statistics for those countries where complete buses and coaches and/or chassis are manufactured. Almost all production data is also up to the end of 2010.

- Any other obtainable data, such as the size and age of the bus and coach parc.

The Guide also includes important news involving European makers outside Europe, eg acquisitions, joint ventures and large sales contracts.

The price of the Guide, including delivery and all updates to the end of last month is currently on special offer at €1,200.00, and payable immediately on delivery by cheque or bank transfer.
You are welcome to a free sample of the information for any one country of YOUR choice. Below are some extracts:
